The Houston Pilots, is one of the busiest pilotage services in the U.S. Its two new boats are powered by three MAN D2862 LE 438 Tier 4 engines. The engines are rated at 1,200 hp apiece and paired with Twin Disc MGX 5204 SC gears and triple HamiltonJet HTX47 waterjets with a max speed of 37.5 knots.

The stability of both overhead and forward bow boarding allows for safe transport of maritime pilots to and from ships that they are piloting, as well as a rescue Sealift rescue system located on the stern of the boat.

PILOT BOAT

**HTX47
No. 607**
